[The following beautiful enigma was presented to the Brooklyn Petri-coterie, among its liferary exercises : ]

With spectral wings and blasted breath, My touch is like the touch of death. With crocked head and double tail, My coming makes 'he world turn pale! In vain an army, sword in hand, Would seek to drive me from the land. Cut off my double tail; and then, Like Richard, I'm "myself again." Decapitate me, like a pheasant, And now you've made me omnipresent. And if both head and tail you sever. The then more obstinate than ever. Though high and spotless in my birth, I'm basely trampled to the earth. But crushed to carth, I rise; and then, Like Monsieur Tonson—"come again."

NEW YORK, March 27.—The Marker.—In our last report the mriest closed steady at 284,23840 for midding uplands. On returday there was more doing and prices were steady. Low midding was quoted at 274,6 but could not be bought for less than 274,6 and some contracts for March delivery were setted at 274,6. Raises 3314 bales at 284,6 for midding Monay.—with more activity in Liverpeol, and orders received by cable, there was a general demands which was freely met by holders. bales 2825 bales at 284,6. Tuesday—there was a good inquiry for export, but ewing to the full prices demanded by holders there was not much done. Sales 2056 bales at 284,6. Wednesday—the advices of a movement in Liverpool started this market and a large binding sea and the sales at 284,226 for midding uplands. Thursday—the activity in Liverpool and Manchesier brought in buyers, the demand was fr-ely met by holders. Sales 4678 bales, including 1842 in transit. Midding 284,259. Yesterday there was very little done ewing to the holday in Liverpool. There was no change in prices and the sales only reached 1936 bales. Midding 284,259.

Prices he have improved 1/6, and Liverpool in a advanced 3-16d. The Manchesier market continues to imprive slowly, under the reduced production of goods. The expectation that this crop will reach 2,600.000 b less, and the fear of a larger crop next year, still prevents buvers of goods from operating freely. The receipts this week are 32,314 bales, and the anterior towns show a decrease in stock of 3573 bales. In the statistical position the sick and cotton affort for Promen will be found. Manchester Harket.

Manchesteria, March 12—Corron Goods.—Today the market is somewhat improved as compared with the beginning of the week. The firmer toe of the Liverpool market has contributed, along with the recent decrease in production, to place both manufacturers and spinners in a better position than some days ago. There is a slight increase of demand for shirtings, and in to'h home and shipping yarns. Home trade yarns are %d to %d per lb dearer since Tuesday, and some transact ons are reported at this figure. Buyers are extremely cautious in giving the increased rates demanded, and, taking the market generally, there are easles only at the full prices on Tuesday, but where there is any change it is decidedly in favor of the seller. A telegram from Calcutta, dated the 9th, reports the goods market quiet but firm. New Bengal cotton 7 %d, cost and freight. On the whole there is a better feeling since Monday and Tuesday all round.

Boston Market.

BOSTON. March 26.—Coffee—The market continues without improvement. Java is selling in small lots to the trade at 22½c gold. Rio is quiet at 16a18c gold; in New York 1185 bags sold at 10a12½c gold, in bond; in Philadelphia 4000 bags at 12½c gold, in bond; in Philadelphia 4000 bags at 12½c gold, in bond; in Baltimore 1003 bags at 12½c gold, in bond. The sales were from New Orleans, 265 from Noriotk, 264 by the Providence Raifroad, and 243 by the Albany Raifroad. The market has been dull throughout the week, although prices advanced ½c ½ ib. The sales this week have been 2000 bales, and the stock bere is 15,000 bales. We quote ordinary at 26c; good ordinary 27c; low middling 28c; middling 29c; good middling 31a32c ¾ ib.

Gunny Bags.—The market is quiet. The prices are nominally 16½a17½c cash. Sales of 50 bales in New York at 17c currency.

Gunny Cloth.—The market is firmer with a more active demand. Sales of 500 bales at 21½c currency, deliverable in June; 200 bales at 20½c currency, deliverable in June; 200 bales at 20½c currency.

Naval Stores.—Spirits turponine was firm and prices advanced, with sales at 55a56c, but has since declined to 53c per gallon. Tar has been in demand with sales of 1100 bbls to arrive at ¾ per bbl. In pitch or rosin we hear of no sales of importance.

Hox.—The market is dull. Sales of Carolina at 9½c10c; Rangoon 9c per pound.

Tas.—Teas have been vary quiet this week. Sales of lines are wanted by the trade at prices same as last reported. Oolongs: we quote common to fair at 57a7sc; good 75a8bc; superior to fine \$1a1 15; finest \$1 25a1 50. Japans: common to fair 80a8c; good 92ca\$1; fine 1 05a1 25. GENERAL COMMISSION MERCHANDS

No. 195 SMITH'S WHARP, BALTIMORE,

disorders, which were agravated by the scrothlous contamination until they were painfully afflicting, have been radically oured in such great camber; in alm: stevery section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most desiructive enemies of our race. Often this unseen and unfait tenant of the organism undermines the constitution, and invites the attack of oufcebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection through the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, inhercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the kin, or foul ulcerations on some part of the body. Hence the occasional use of a bettle of this SAR-APARILLA is a tvisable, even when no active symions of disease appear. Persons afflicte with the following complaints generally find immediate relief, and, at length, cure by the use of this SAR-APARILLA: St. Anthony's fire, Rose or Erysipelas, Tetter, sait Rhoum, Scald Head, Ring Worm, some Eyes, Sore Ears, and other eruptions or visible forms of Secorations disease. Also, in the more concealed forms, as Dyspepsia, Dropsy, Heart Di case, Fire, Epilopsy, Neurages and the various succerous affections of the muscular and nervous switches. 

Synbilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subdump these obtinate maladis by any medicine. But long continued use of this medicine will quee the complaint. Lencorrhosi or Whites, Uterine Ulcorations and Female diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating eff of. Minute Directions for each case are found in our Almanso, sup lied gratis. Rheumatism and Grut, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints. Torpidity, Congestion or influentation of the Liver and Jaun lice, when a crising, as they often do from the ranking poisons in the bood. This SAR-PARILLA is a great revisioner for the strength and vice of the system. These whas are Languad and Listle s, Despondent, Sleepless and troubled with Nervous Apprehensions or feases, or at y of the affections symptomatic of Westmans, will find immediate relief and convincing evidence of its restorative power upon trial.

FERTILIZERS!

THE OLD AND LONGEST ESTABLISHED STANDARD MANURE.

HODES' MANUEE IN ITS PREPARATION, IS MADE EQUALLY ADAPTED FOR FACING large crops of Cotton, Corn, Wheat, Tobac to Potatoss and other Root Crops.

The Manufacturing Department is conducted by Frederick Kiett, one of the most stillful Chemists and Manufacturers in the United States.

It is endorsed, approved and recommended by all of the most prominent Chemists and Agriculturists in the Southern states. "It can be relied upon as uniform in quality," always reliable, productive of large crops, and unexcelled by any in the market, in the high percentage of "True Fertilizing Principles."

Price \$57 50 cash, or \$65 time, with Factor's acceptance, and 7 per cent, interest until 1st December, 1860.

The above analysis indicates a Manurial Superphosphate of Lime of the highest grade ordinarily found in the American market. Its large amount of Soluble Phospheric Acid supplies an active nutriment for the development and maturity of the fruitage. The Sulphuric Acid which it contains, by chemical affinity with the elements of most soils, contribute to its Fertilizing Properties. To show its best effects, this Superphosphate should be applied under and in contact with the Seed, and with a moderately shallow covering of soil,

We guarantee that every package of RHODES' STANDARD SUPERPHOSPHATE shall fully come up to the above analysis.

THE REPUTATION
this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrotulous disease, where the system seemed saturated with corrup fon, have been putified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until
